Introduction to the d. Wiki

Introduction

(~40 minutes)

Learn the basic concepts of Confluence, including spaces, pages, comments, and @mentions in (a little over) 60 seconds! A must watch for new Confluence users.

One place for all your work

Confluence is where you create, organize and discuss work with your team. Stop using email threads to discuss work with your team. Use Confluence to keep your people, work, and discussions all in the same place.

Create content with pages

See how you can change the way your team creates content with Confluence.

Embedding Videos in Confluence

A short demo of embedding YouTube videos in Confluence pages using the Widget Connector.

STIP DEVELOPMENT PROCESS

FY 2019 Call for Projects Training Hi Res

Description	Time Mark
How to update an existing project	00:18:38
How to enter a funding request	00:35:30
How to enter a new project:	01:01:32
