

Temporary Parking Restrictions

Mission

In limited circumstances, DDOT may approve public space permits for the restricted and temporary use of street parking, curbside space, or other public rights-of-way, such as the placement of moving containers or funeral parking.

Procedures & Services

Regarding the application for a Temporary Occupancy Permit:

- Companies, homeowners, tenants, and others can apply, via the [Transportation Online Permitting System \(TOPS\)](#), for a temporary occupancy permit required for the short term private use of public space in the District.
- The permit authorizes the temporary occupancy of public space, such as lengths of metered or non-metered parking lane, travel lane, sidewalk, alley, or an intersection for an approved number of days.
- If parking needs to be reserved or prohibited, either Reserved Parking or Emergency No Parking signs must be printed from the [TOPS](#) system after the permit is approved, paid for and issued.
- A permit can be printed from any place, but the sign printing is available only at DDOT Kiosks or at the permit office.
- Many of the Temporary Occupancy Permits require an office review and it is best to allow adequate lead time for the review and approval of your application.
- Signs must be posted 72 hours in advance in residential areas without metered parking and at least 24 hours in advance at metered parking spaces in commercial areas.
- All signs must be removed immediately upon completion of work.

Reserved Parking

Reserved parking allows vehicle parking in up to 4 curbside parking spaces for up to 16 hours. These permits are perfect for reserving curb space for a **Wedding, Funeral, Family Event**, or other non-recurring event.

Emergency No Parking

Emergency no parking signs prohibit vehicle parking. Permits which require Emergency No Parking signs include **Construction Staging Area and Roll off Debris container permits**.
